

GEORGE

“The NorthShore doctors saved my son’s life. He was born at Evanston Hospital nine years ago with a few complications. Every year, on his birthday, my wife and I donate to the Pediatric Care Fund to celebrate his life. If it weren’t for those doctors, my son might not be here today.”

CAROL

“My husband and I give to NorthShore to help those who can’t afford medical care. We know that our gifts directly help the people in our community who need it most.”

Why Do Donors Give to NorthShore?

SHELDON

“Visiting the hospital is never fun, but the kind and thoughtful nurses at NorthShore made my time there more pleasant than I could have ever imagined. I give to NorthShore because the nurses showed me a better side of humanity.”

WILLIAM & JULIA

“NorthShore is exceptional in every aspect, especially their use of new technology. My wife and I are also very appreciative of the personal relationship we’ve built over the years with our primary care doctor, Dr. Vernof. We give as a thank-you to NorthShore.”
